

Alistair McFarlane – General Manager Asset Development, Beston Pacific Asset Management

Alistair is the General Manager for Asset Development at Beston Pacific Asset Management (BPAM).

The business is responsible for capital raisings in the Agricultural Business sector, including the 2015 \$127M ASX listed Beston Global Food Company (BGFC).

Alistair has 30 years' experience in Corporate Finance, Asset valuation and economics, business and project management. Alistair has been previously engaged with KPMG Corporate Finance, CBRE, The Beston Wine Industry Trust, The University of Adelaide's Commercialisation Company ARI and the Beston Parks Group. He holds a Bachelor of Agricultural Science degree, a Masters in Applied Finance and Investment, a Masters in Business Administration and is a Certified Practising Valuer.

His Australasian roles have included technology commercialisation, new product development, company start-ups, fund raising in new and grow out agricultural based growth companies, particularly in the premium wine and large-scale dairy farming segment; employing new technologies and products to enhance bottom line share holder performance.

BGFC is a vertically integrated "paddock to plate" business that successfully operates and invests in food, beverage, and agricultural assets, being founded by Dr Roger Sexton in 2014. A strategic value's based management approach, development of its food counterfeit technology and offshore inhouse sales teams (China, Singapore, Thailand, Vietnam, Malaysia and Brunei) is expanding international company growth. Alistair role with team in BGFC is the responsibility for the origination, review, financial – project assessment and recommendations for Business investment opportunities, and New Product Development to meet this expanding international consumer food demand.
