

Boris Musa – Managing Director, Mainstream Aquaculture Group

Boris Musa is the Managing Director of the Mainstream Aquaculture Group (Mainstream), a vertically integrated producer and supplier of Barramundi. Mainstream is a major supplier of Barramundi table fish products in Australia and is the global market leader in the supply of juvenile fish (seed stock) to the Barramundi aquaculture industry, exporting to 21 countries across five continents. Mainstream operates the largest aquaculture production facility of its type in mainland Australia and the world's largest Barramundi hatchery. Boris has been Managing Director since 2012 and under his stewardship; company value has increased by a multiple of 20 times (circa 2,000%) on a 10-fold increase in revenue. Mainstream has been recognised by Business Review Weekly as one of Australia's 100 fastest growing companies for three successive years.

Boris' background is in financial services. He commenced his career in funds management business, Boutique Development & Marketing Direct and more recently, Boris spent five years at Macquarie Group, the last two as a Director of Macquarie Global Investments. He performed multiple roles across a portfolio of businesses in agricultural asset management, private equity, investment banking and traditional funds management, with his final role at Macquarie Global Head of Sales for the Alternative Investments division. During his tenure, he was appointed to the Macquarie Global Investments leadership team and held a position on Macquarie's Global Deal Assessment Committee.

Boris is a member of the Juvenile Diabetes Research Foundation Finance and Audit Committee and has previously chaired this Committee, along with the Policy Development and State Committees. He is also a member of the Australian Institute of Company Directors and the Wyndham City Economic and Policy Development Committee, reporting to the Mayor. He holds a Bachelor of Commerce from Deakin University and is a Deans Scholar in Finance (top 1% of graduates). He also holds a Diploma in Natural Resource Management and a Masters of
