

Gerard Davis – Director, BioInfo Consulting and Investment Pty Ltd

An executive with extensive experience in agribusiness, biotech and agtech and a demonstrated ability to derive value from commercialising technology in companies ranging from start-ups to multi-national global leaders. Now looking to use his expertise to assist companies realise their goals in technology development and commercial success.

Gerard has held senior roles with a series of major Australian and global companies. Most recently he was General Manager of Innovation and Strategic Development at Australian Agricultural Company (ASX:AAC). Prior to that he held senior roles with ThermoFisher Scientific (NYSE:TMO) and Pfizer's Animal Health Division (NYSE:PFE) – now Zoetis. In these roles he has been instrumental in enabling commercial success from the development and implementation of technology in the livestock and agri-food industries.

His success commenced when as Managing Director and CEO, he founded and grew Catapult Genetics into a globally leading role in application of molecular diagnostics in animals and eventual acquisition by Pfizer Inc. A key achievement being the development and execution of a successful growth strategy based on commercialisation and sale of products as well as Intellectual Property development.

He spent 11 years as a researcher with Australia's leading research agency, CSIRO.

He has a Bachelor of Science, a Ph.D and an MBA and is a graduate member of the Australian Institute of Company Directors.
