

Mary Turonek – Senior Associate, FB Rice

Mary Turonek is a Senior Associate in the Perth office who holds great expertise in developing and implementing tailored IP strategies aligned with the commercial objectives of her clients, who include SMEs, universities, national research organisations and ASX-listed companies.

With a PhD in Physical and Inorganic Chemistry, Mary's patent practice covers a diverse range of chemistry and chemical engineering-related industries with a growing focus on Agribusiness and Foodtech. She has represented several Western Australian wineries, dairy producers, and livestock exporters, providing assistance with national and international brand protection strategies and resolving ownership disputes. Mary has also provided patent advice and assistance in relation to technologies for extending storage life of food, in particular pre-packaged cut fruit and vegetables, closures for beverage containers, and nutritional food products.

She is also a very good cook!
